

## Cancer Therapy Treatment Summary

Name: [Joe Smith](#)

Date of Birth: [11/15/1945](#)

Cancer diagnosis/ type: [Rectal cancer](#)

Date of diagnosis: [1/2/2009](#) Diagnosis given by: [Dr. Jones](#)

### Cancer therapies

Type of surgery: [Transabdominal resection and lymph node dissection](#)

Date of surgery: [3/25/2009](#) Surgeon: [Dr. Rosato](#)

Performed at: [Hospital of the University of Pennsylvania](#)

### Pathology Findings

Tumor type: [Adenocarcinoma](#)

Staging: T [3](#) N [1](#) M [0](#) Stage: [IIIB](#)

Relevant pathology findings: [Grade 2, all margins clear](#)

Lymph node status: [2/15 lymph nodes positive for cancer](#)

Initial work-up abnormalities:

[Tumor found on colonoscopy done due to anemia](#)

[CEA at diagnosis 42, liver function tests normal, CT scans show no evidence of metastases](#)

**Medical Therapy**

**Administered by: [Dr. Weijing Sun](#) /**

**Nurse Suzy Miller**

Medication	Dose & Route	Planned schedule	Dates given / any dose reduction
Oxaliplatin (FOLFOX)	85 mg/m <sup>2</sup> Given IV on day 1	Every 2 weeks x 12 cycles	4/27/09-9/12/09  Last 2 doses reduced by 25% due to neuropathy
5-FU (with leucovorin)	400 mg/m <sup>2</sup> Given IV on day 1 & 2  Leukovorin 200mg/m <sup>2</sup>	Same	4/27-9/12/09
5-FU	600 mg/m <sup>2</sup> Given IV over 22 hours on days 1 & 2	Same	Same
5-FU given with radiation therapy prior to surgery		1/5-2/9/09	As planned

Notes about medical treatment

Was the treatment planned changed, if so, why? Dose reduced due to neuropathy

List any major side effects of medical therapy

Neuropathy requiring dose reduction and treatment with gabapentin for 1 year.

**Radiation Therapy**

Radiation therapy plan Physician: Dr. Metz

Type of radiation therapy: 3D conformal radiation

Area in treatment field: tumor bed, presacral and internal iliac nodes

Total planned dose: 45 Gy Total dose received: 45Gy

Total number of planned fractions (sessions): 25

Date radiation therapy started: 1/5/09 Date completed: 2/9/09

Any notable side effects: Diarrhea, skin toxicity. No doses missed or delayed.
